

**Minden Gardnerville Sanitation District
District Manager's Report
November 2008**

1. EDU allocations: No EDU's were allocated during the month of October.
2. Effluent Disposal: No effluent was discharged from the ponds during the month of October.
3. Digester Expansion Project: The digester project is progressing with no outstanding issues at this time.
4. Plant Security: The contractor recently had a break-in and had approximately \$15,000 worth of tools and equipment stolen. Access was made by cutting the chain on the gate as well as cutting a hole in the gate itself. This is an area of the plant, like many others, that is unlit and no security system is in place. Upgrades to the current security system should be considered.
5. Hartford: Several MGSD employees are, in addition to the state retirement program, enrolled in The Hartford 457 program. The program is voluntary and MGSD contributes in no way with the exception of the minimal administrative duties associated with the program. Recent changes in the program have made MGSD employees eligible for a program that gives participants more options. In order for MGSD employees to be eligible for this new program, a board motion will be needed to allow the changes.

Frank T. Johnson
